# Go to the MRC website

The screenshot shows the homepage of the Mekong River Commission (MRC) website. At the top, there is a browser address bar with the URL <http://www.mrcmekong.org>. The MRC logo is on the left, and navigation links in Thai, Lao, and Vietnamese are on the right. A search bar is also present. Below the header is a main navigation menu with items like Home, About MRC, Mekong Basin, Topics, Publications, News & Events, Working with MRC, Highlights, and Data Portal. The main content area features a large image of a meeting with the headline "Successful conclusion of Pak Lay consultations" and a text block about water levels. Below this are three columns: "What's New" with a news item about Australian support, "Events" with the 7th MRC Regional Stakeholder Forum, and "Featured Publications" with a report on climate change impacts.

From 14th to 20th May 2019, water levels along the lower Mekong River from Thailand's Chiang Saen to Lao PDR's Luang Prabang will continue to slightly rise up and stay above their long-term averages (LTAs). For downstream reaches from Lao PDR's Vientiane to Cambodia's Kompong Cham, the trends will be the same as upstream part. The lower reaches from Cambodia's Phnom Penh at Chaktomuk to Neak Luong, water levels will be slightly increasing and stay above their LTAs due to the abnormal rainfall in early May 2019 in the floodplain area. For Viet Nam's Tan Chau on the Mekong River and Chau Doc on the Bassac River, water levels were fluctuated over their LTAs but tracking in different trend, compared to previous years.

[Forecasted](#) water level for 22 stations (updated every Monday) [more »](#)

[Observed](#) water level compared to long term average for 13 stations (updated every Monday) [more »](#)

# SCROLL DOWN to Documents

## Forum objectives

The forum's primary objective is to consider new transboundary partnerships and arrangements (cooperation mechanisms) for the LMB to support sustainable development and management of water resources.

A sub-objective of the forum is to share the lesson learned from the M-IWRM project in regard to potentially new and innovative transboundary cooperation arrangements, including their benefits and implementation challenges.

## Participants

The forum is free of charge and open to all interested participants including

- MRC Member Countries
- MRC Development Partners
- Research Institutes and Universities
- Other international river basin organizations
- Civil society organizations and NGOs
- Local authorities and communities
- Other interested groups

## Date and venue

20-21 May, 2019

Softel Bangkok Sukhumvit Hotel, Bangkok, Thailand

This  [Admin Note](#) provides participants with some useful information on transportation and accommodation

## Exhibition

Throughout the forum, there will be exhibition on related topics to the objective of the forum from the MRC and other organizations. Other river basin organizations are invited to exhibit their work and achievements at the forum's exhibition. For further information about the exhibition, please contact our colleague below.

## Financial support

A limited financial support is available to assist participants from civil society and community-based organizations with financial difficulty. In case you request for financial support, please provide information in the online registration form by 07 May 2019.

## Registration

Please register by completing this [online registration form](#). The deadline for registration is by 10 May 2019.

## Consent note and Agenda

Please click  [Consent Note](#) and  [Agenda](#)
